

Professional Oversight, Knowledgeable Insight

We offer construction-specific accounting, audit, tax, and consulting services delivered by industry-dedicated professionals.

Our Edge

Because of our industry focus, we possess a depth of knowledge and experience that is unequalled, and are able to offer our construction clients proactive and insightful business advice that helps build a better bottom line. Our construction client relationships are forged through frequent and open access to our partners, combined with a vast array of expertise and creative problem-solving.

// It's hard to have the necessary expertise in all of the financial aspects of our business, so it is reassuring to know that Wiss is there to provide the financial and tax services we need. Their services are crucial in helping us minimize any risks and maximize our profits.

*Randy Cohen, CPA
Chief Financial Officer, Torcon*
