

## Professional Oversight, Knowledgeable Insight

**Our team is distinguished by our concentrated focus in the arena in which you do business, providing industry-specific services with industry-experienced professionals. Our practice represents the principal forces in the industry.**

### **Our Edge**

By actively participating in all relevant trade associations, we also stay current with trends and regulatory changes that could affect your bottom-line results. The questions we ask are relevant, the business advice we offer is proactive and insightful.

### **Service Offerings**

- **Accounting and Assurance**
- **Tax Planning and Compliance**
- **Specialized Consultation**

// Wiss was invited to compete for our account based upon their industry experience and knowledge, above and beyond their ability to audit our books (i.e., capabilities in tax, FAR, international, advisory services). They won our business due to their practical application of that knowledge, their willingness to listen and to patiently teach, the demonstrated value of their services, and a genuine feeling of care and concern for our well-being
